

Our Professional Portfolio

New packaging design: Same Silotite quality in a convenient sleeve for less waste

Our professional range of products have a longer film length and allow for more bales per reel compared to Silotite Original 25µm, 1500m film. This results in:

- Reduced transportation costs
- Less required storage space
- Less film to recycle
- Fewer reel changes, saving valuable time

SILOTITE Pro 2000

Maximum bales, less waste, fewer stops.

SilotitePro2000 is designed for maximum efficiency, with the highest potential bale output in the Silotite range.

Most efficient SilotitePro solution

33% more bales per reel*

Ideal for round baler-wrapper combi machines

Perfect pairing with Baletite (for Film&Film)

SILOTITE Pro 1800

More bales and mixed usage.

SilotitePro1800 offers farmers and contractors several benefits including more bales per reel and time savings.

Perfect balance between strength and efficiency

20% more bales per reel*

Ideal for mixed use (round bales and small square bales)

Available as Sustane with 25% PCR

SILOTITE Pro 1650

Higher efficiency in all conditions

Designed for use on all bale wrapping machinery, including high speed and square bale wrappers.

Ideal for large square bales & high speed wrappers

10% more bales per reel*

Perfect for haylage uses

Suitable for all types of wrappers

Width (mm)	Thickness (µm)	Length (m)	Packaging	Colours Available**
750	20	2000	Sleeve	  
750	23	1800	Sleeve	  
750	25	1650	Sleeve	  

*Compared to Silotite Original 25µm, 1500m film. **Colours may vary according to region
