

Adding Value, Saving Time

SilotiteECO provides an economical balewrapping solution for small to medium sized farming operations. It is a tried and tested balewrap developed for use on fixed round balers.

This cost-effective silage stretchfilm is manufactured with 10% extra length which allows users to gain up to 10% more bales per reel. Depending on the number of layers applied this could mean an additional 3 bales are wrapped for each reel used. The extra film length also saves time as it means fewer reel changes.

- 10% extra length = 10% more bales
- Saves time - fewer reel changes
- Saves money - 3 more bales per reel
- For use on fixed round balers

SilotiteECO

Width (mm)	Thickness (µm)	Length (m)	Pallet Dimensions (cm)	Reels per Pallet (#)	Pallet Height (m)	Box / Sleeve
750	22	1650	125 x 100	40	± 1.65	Box

SilotiteEco is available in Black, White and Green.
